

Nancy Anne Manno

February 12, 2009

I am a native San Diegan and my husband and I have lived in La Jolla, on Mt. Soledad overlooking the Shores, for thirty-five years. We are privileged to live in La Jolla and privileged to live in one of the "Case Study" houses... Triad House "C," on Rue de Anne. I believe these privileges require community service, hence my desire to serve as a Trustee of the La Jolla Community Planning Association.

As a Trustee I would adhere to the La Jolla Community Plan. I believe it to be imperative that a La Jolla CPA Trustee represents the consensus of the community rather than individuals who are actively involved in Real Estate development and construction. Although I am not a resident of the Bird Rock community and not directly affected, I am very supportive of the "No Third Story" group and their efforts to maintain a pleasant residential community. I am opposed to paid parking.

I have served on the La Jolla CPA By-laws committee for the past eighteen months, participating in what were often challenging situations with the San Diego City Planning department and the San Diego City Council. The By-laws committee is an example of what can be accomplished when a diverse group of people, with very differing opinions, is committed to working together to achieve a common goal.

The La Jolla CPA, under the fine leadership of Tim Golba, and now continuing under the equally fine leadership of Joe LaCava has grown to become a very civil and responsible representative of the entire La Jolla community. As a Trustee I would pledge to maintain the civil atmosphere exemplified by the current Board.
