

PHIL MERTEN

My wife and I have lived in La Jolla for 33 years. Our two adult married daughters attended La Jolla schools. As the owner of an architectural firm, I moved my practice to La Jolla in 1976. I specialize in new custom homes, additions, remodels and renovations for private homeowners.

I joined the La Jolla Community Planning Association in 1988. I believe new development must be sensitive to and respect existing neighborhood character and surrounding development. With that as a goal, I was an active contributor in the development of our current La Jolla Community Plan and Local Coastal Program. My focus has always been on encouraging a profound appreciation for and adherence to the goals and recommendations of the La Jolla Community Plan, and the fair and consistent application and enforcement of all the plans and regulations that govern development in La Jolla.

I appreciate the opportunity to serve La Jolla through community service and seek your support to serve the LJCPA as a Trustee.
