**Potential Historical Resource Review
July – September 2009**

Cleared Non-Historic – Property reviewed by staff and determined not historic.

Approved Potentially Historic – Property reviewed by staff and determined to be potentially historic, and the proposed project is approved as consistent with the Secretary of the Interior’s (SOI) Standards.

Report Required – Property is determined to be potentially historic, and the proposed project is not consistent with the SOI Standards, staff requests a report for a full determination of significance.

Additional Information Required – Sufficient information was not submitted by the applicant for staff to make a determination of potential significance or consistency with the SOI Standards

Project Revised – Property is determined to be potentially historic. Staff has previously required a historical report because the proposed project was not consistent with the SOI Standards, however the applicant has since revised the project to be consistent with the SOI Standards and the project has been approved.

HRB – A historical report has been submitted, reviewed by staff, and the property is being docketed for a hearing before the HRB for a final determination of historical significance.

Exterior Alteration – Project proposes a change to the exterior of a building.

Demolition – Project proposes the demolition of a building.

Site Work – Project proposes site work only, no change to a building.

Public Input – Number of reviews for each community for which staff received a response to the email request for public input.

Code Cases – Number of reviews for each community that were received by staff with code compliance cases on the property.
